

Galileo E-News #9

News & Updates

We have nearly come to the close of the term...

Students have found themselves pushing past comfort zones and experiencing a deep sense of achievement—walking up the 1000 steps last week on trail, presenting their team project's journey in front of 100 people and tomorrow—they will present their personal journey to their parents and guardians.

Thursday is our final formal day of school. End of term programming will begin on Friday. Galileo will host the Mega Trail on Tuesday 16 Dec.

Please take the time to complete the parent survey on the homepage of the wiki, your feedback is very valuable.

We look forward to meeting many of you on Wednesday.

Week 9/10's themes were: Health & Celebration

Goals:

These past two weeks students should have:

1. Gained an appreciation of the multiple facets of health and wellbeing.
2. Completed all of their Team Project tasks in anticipation of their Final Exhibition.
3. Completed all outstanding homework.
4. Embraced the last of Galileo.

Trails & Classes

Health week

classes were varied: we covered body image, First Aid & CPR, becoming an advocate against family violence and sport.

Students were also supported to prepare for their Final Exhibitions & Student Led Conferences.

Final community service activities were acknowledged through thank you cards.

The final week has had a focus on reflective practice and celebration. We will end the week with a graduation ceremony & celebration BBQ. Students will be dismissed from the CBD.

Homework

Each week, all homework tasks will be posted on the Homework page of the Team Galileo wiki (link below).

Students need to be on top of their homework. They need to have completed all out-standing homework tasks.

All students are expected to comment on their blog partner's posts and respond to teacher comments.

Homework:
